Atlanta's favorable demographic trends, strong demand, and a lack of large-scale speculative supply have led to the area's tightest retail market on record. Annual net absorption has outpaced new supply for the past three years in Atlanta, leaving the availability rate at 3.8%, about 250 basis points lower than the 10-year average.

Strong population growth should continue to boost the Atlanta retail market in the near term, though pockets of weakness remain. The owners of some of the region's underperforming malls are planning major redevelopment projects, and retail centers in areas with below-average demographic profiles, as well as ground-floor retail spaces in office-heavy urban districts, face challenges backfilling vacancies. On the other hand, anchor and junior anchor space availabilities in high-demand areas remain limited, and a long list of potential tenants stand ready to fill space vacated by bankrupt category killers. For example, Burlington has already assumed the leases on many of the market's 13 former Bed Bath & Beyond spaces.

There is about 740,000 SF of retail space under construction in Atlanta accounting for just a 0.2% expansion of the existing inventory. Most of this space will be delivered with a tenant in place with demand from national grocery stores and expanding restaurant chains. Activity has centered around preleased and build-to-suit suburban general retail properties with triple-net leases

in place, while mixed-use redevelopment opportunities have been most common in densifying urban areas. Consistently strong demand for these spaces has reduced availability to a historic low, with even lower availability in power centers and freestanding retail.

Tenants are absorbing space quickly, and with a diminishing construction pipeline, high levels of occupancy, and gains in retail sales, landlords have retained pricing power.

Retail asking rents hit a new high of over \$20/SF, rising over 5% in the past year. This makes Atlanta a top large U.S. market for rent growth, along with other Sun Belt cities like Phoenix and Tampa. Still, Atlanta is one of the largest affordable markets in the country.

A tighter lending market has slowed retail investment over the past year. Atlanta's trailing average four-quarter transaction volume saw a nearly 10% decrease compared to the 10-year average. The large deals that recently closed include well-located grocery-anchored developments and suburban portfolios.

Looking ahead, Atlanta's continued population growth provides the market with the demographic fundamentals to weather difficult macroeconomic conditions, and the relative scarcity of retail space bodes well for stable vacancy rates and rents through 2025.

# **KEY INDICATORS**

Sales Volume	\$2.6B	\$2B	N/A	\$5B	2022 Q2	\$526.2M	2001 Q2

Retail property fundamentals remain historically tight in the Atlanta market. Net absorption has been positive since late 2020, a quick return after just two negative quarters. This steady demand, alongside the lack of new deliveries, has kept the availability rate at 3.8%, the lowest for the region on record and well below the national average of 4.7%. The roughly 14 million SF of available space is about 25% lower than the 2019-23 average.

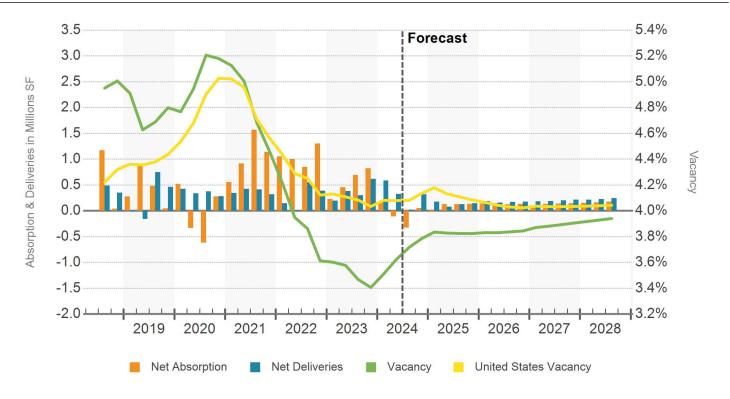

Market participants report, and more forward-looking indicators confirm, that Atlanta may be running out of suitable retail space. Four-quarter rolling leasing activity declined from about 8.9 million SF in mid-2021 to about 6.5 million SF in 24Q1, a 25% decrease. The space that is available is leasing at an above-average pace. The average months to lease in Atlanta is 6.4 months, a near-record low for the region.

The share of leases under 2,500 SF has ticked up recently, with these deals accounting for 70% of the total over the past year. UPS, State Farm, Total by Verizon, and AT&T are some of the top tenant companies by total square footage of new lease deals. For new lease deals in the past year over 30,000 square feet, Publix and Kroger are among the top tenants, followed by a furniture and mattress store, Walmart, and recreational uses like pickleball and a trampoline park.

Bed Bath & Beyond's 2023 bankruptcy, which resulted in 13 Atlanta-area closures, is being treated less as a sign of broader distress in the market and more as an opportunity for stable tenants needing well-located, larger blocks of space. Only about three of the spaces are still available for lease. Tenants in the 10 filled former Bed, Bath, & Beyond space include five Burlington Coat Factory stores, as well as other expanding national retailers like Boot Barn, Sierra Trading, Nordstrom Rack, and Homesense.

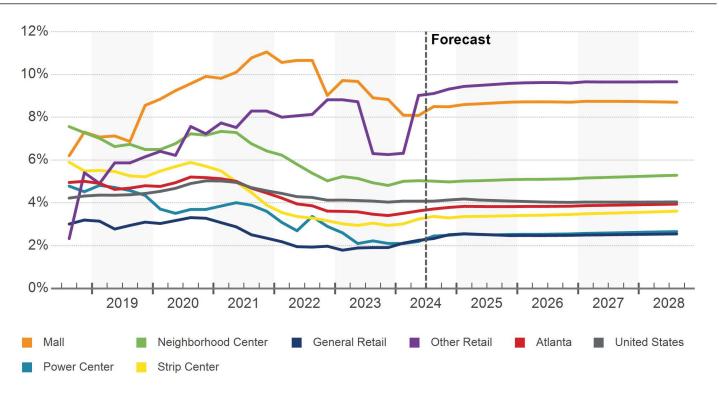

Annual population growth in Atlanta has roughly doubled the U.S. average on a percentage basis over the past decade, and median household income growth has also outpaced the national average in recent years. These favorable demographic underpinnings have helped drive demand for retail space in Atlanta and continue to support the region's growth. The region's fastest-growing pockets of affluence, concentrated in the northern suburbs, unsurprisingly will garner an outsized share of new retail demand. However, neighborhoods inside the perimeter should also continue to benefit from increased density and job growth. The influx of high-paying office jobs and accompanying multifamily development in Midtown, West Midtown, and the Eastside should continue to boost buying power in those premier in-town areas

<sup>\*</sup>Renewal

An expanding number of new residential rooftops has retailers paying more for space. Triple-net asking rents accelerated steadily over the past three years, and the metro saw overall rents increase at a record pace of almost 7% year-over-year growth in 2023. While rent growth, at 5.3%, is still well above the area's historical average, the rate of increase is flattening. Quarter-to-quarter rent growth slowed has slowed to 0.6% from 1.8% early last year. Still, Atlanta's annual retail rent growth sits above the national average of 2.4% and is growing at a pace similar to other large Sun Belt markets like Dallas.

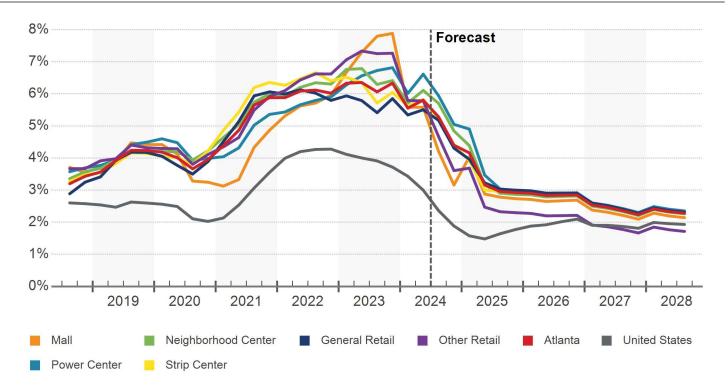

More suburban and exurban areas are outperforming Atlanta's market-wide rent growth. The top submarkets for year-over-year growth include Roswell/Alpharetta, Chamblee/Doraville, and Fayette/Peachtree, each with around a 6% annual increase. This is a reversal from earlier this year, when in-town areas like Midtown and Buckhead were outpacing the suburbs. These urban submarkets remain the most expensive areas for retail rent in Atlanta, with market rents averaging around \$35/SF and the best buildings commanding more than \$60/SF.

Construction costs for new freestanding retail have driven up rental rates even in less densely populated areas with low submarket rent averages. The South Fulton/Union City Submarket averages \$19.50/SF, lower than the metro average. Newly built-to-suit properties for expanding credit tenants are leasing over \$60/SF. For example, Chipotle, which is opening 300 new stores nationally this year, signed a 15-year lease in November 2023 for space in the S Fulton/Union City Submarket. The 2,235 SF deal was for \$69/SF NNN with 10% annual escalations. Starbucks signed a 2,500 SF lease in the same area in April 2024 for \$64/SF NN with a 10-year term.

More affluent suburban areas are pushing prices for well-located buildings. The Atwater, an 11,600-SF strip center, is located across from Alpharetta's popular mixed-use Avalon development. Built in 2016, the building is asking \$60/SF NNN for a 2,200 SF space. In the Cumberland/Galleria area, motorcycle gear company Dainese moved into a 2014-built end cap space in June 2023. The 3,170-SF lease was signed for \$60/SF NNN with a 10-year, five-month term.

Local demographic tailwinds, including continued population growth, have helped insulate Atlanta from larger structural limitations. While the Atlanta area will feel some impact from flattening consumer spending and the closure of challenged stores, overall retail fundamentals have improved significantly since the onset of the pandemic.

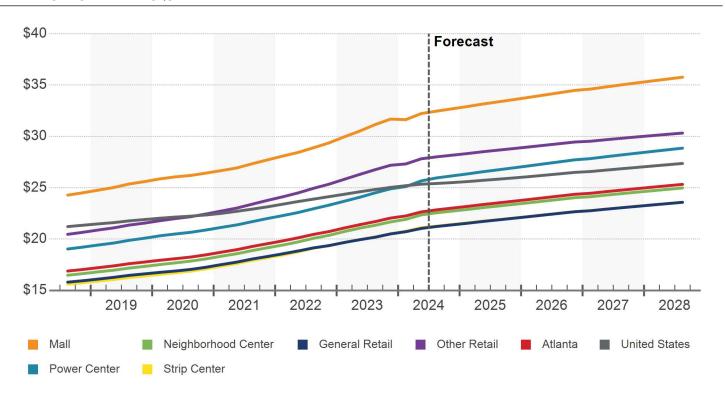

### MARKET ASKING RENT GROWTH (YOY)

# MARKET ASKING RENT PER SQUARE FEET

Despite historically tight fundamentals, large-scale retail development remains limited around the region. The Atlanta market has about 740,000 SF or 0.2% of its existing inventory under construction. This is slightly below the national average of 0.4%. About 25% of all under-construction retail in Atlanta is available. Preleasing includes grocery stores, car dealerships, and national restaurant chains.

Many of the recently built retail developments in Atlanta were also constructed with tenants in place. A 148,000-SF Costco was completed at the end of 2023 in the Riverdale/Jonesboro Submarket. Atlanta-based Connolly Realty Services developed a 95,545-SF Kroger at MarketPlace Terrel Mill in Cumberland/Galleria area, delivering in August 2023.

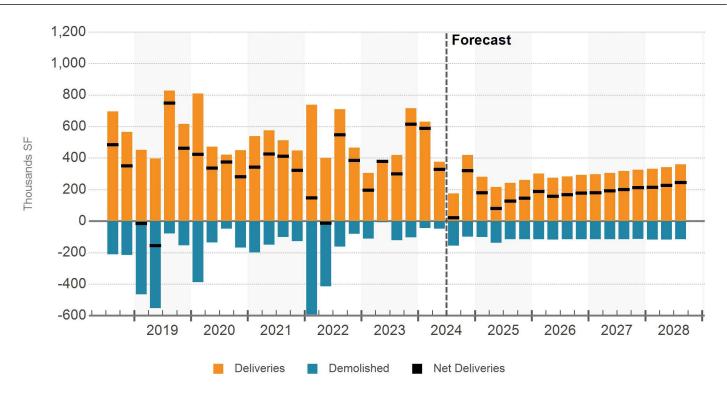

The largest project to deliver this year is Phase I of the High Street, a mixed-use district in the Perimeter area of Dunwoody. Boston-based developers GID Investment added about 600 multifamily units, boutique office space, and 150,000 SF of retail space to the 36-acre site across Dunwoody MARTA station and Perimeter Mall.

Signed tenants include Puttshack, Ben & Jerry's, Nando's, and Velvet Taco, as well as a local restaurant and nail salon.

The CBD Submarket, which includes some gentrifying East Atlanta neighborhoods, has delivered a significant amount of retail in recent years. Most of the retail delivered in the CBD Submarket can be attributed to Carter's Summerhill development, which includes several properties delivered in the past year, including a 50,000-SF strip center anchored by Publix and three buildings along Hank Aaron, all fully leased.

The amount of retail space added to the Atlanta market will likely continue falling in the near term; 2024 is forecast to have the lowest amount of square feet delivered in two decades. Construction starts have declined, with about 178,000 SF breaking ground in 24Q1. At the same time, almost 4 million SF of retail has been demolished over the past five years. The combination of these factors, along with Atlanta's population growth, should keep retail vacancies low for the next several years.

Atlanta is among the top five markets nationally for 12-month retail property sales volume, outperforming its rank by asset value. However, macroeconomic conditions have muted transactions; Atlanta's trailing four-quarter sales volume is nearly 10% below the 10-year average. In the past 12 months, retail assets have typically traded for about 7% less than the asking price, compared to under 4% in 2022. This growing disparity could be a factor in declining sales volume. However, low availability and high rent growth have continued to attract interest in the area.

Many of Atlanta's largest recent transactions include grocery-anchored developments and portfolios, with more deals in suburban areas. In April 2024, Atlanta-based developer Jamestown purchased Fountain Oaks, a Kroger-anchored shopping center in the affluent suburb of Sandy Springs. Atlanta-based developer EDENS sold the 160,000-square-foot center for \$47.9 million or \$298/SF. The 1988-built, 2003-renovated development was 98% leased at the time of sale.

Earlier this year, an 18-property portfolio of retail properties in Fayette, a suburban county south of Atlanta, sold for \$134 million or \$128/SF. Houston-based private equity fund 5Rivers CRE purchases the property from New York-based institutional investment manager Nuveen. The portfolio sits on 106 acres and includes notable anchor tenants like Publix, Hobby

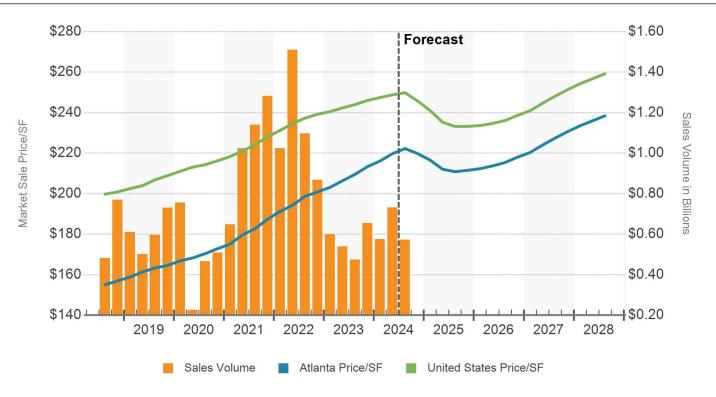

Lobby, Burlington Coat Factory, and Ross. It was over 95% leased at the time of sale and delivered a 7.99% in-place cap rate. Cap rates are up from 2022 but vary widely by property type, as higher borrowing costs and slowing rent growth impact investors' going-in yields.

Transactions of grocery-anchored developments typically obtain lower cap rates in the high-5% to mid-6% range, especially if they are well-located in densely populated and growing areas. For example, the 100%-occupied Kroger-anchored development, Marketplace at Buckhead, on Peachtree Road, sold for \$38.5 million, or \$375/SF, with a 5.81% cap rate in October 2023. The buyer, Florida-based Sterling Organization, purchased the 1958-built, 2013-renovated property from Blackstone in an all-cash deal.

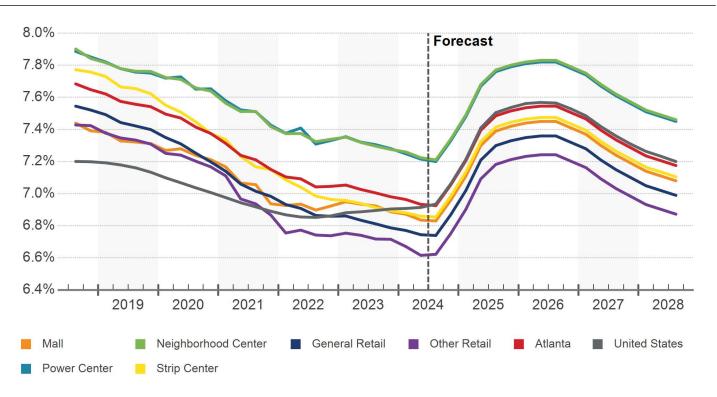

Annual rent growth in 2023 reached an all-time high of nearly 7% year over year. The forecast shows a decrease in the pace of Atlanta's retail rent growth for 2024 and 2025, falling to about 3% over the next 12 months. This shift, along with elevated interest rates and uncertainty around federal monetary policy, will likely keep transactions muted. However, Jamestown recently announced its planned purchase of North American Properties' Atlanta office, including developments like Colony Square, the Forum Peachtree Corners, and Avenue East Cobb. The deal is expected to close in the fourth quarter of 2024.

Atlanta boasts lower living and business costs than large East and West Coast metros, and this competitive advantage continues to boost population and job growth. The Atlanta region was third for year-over-year growth from 2022 to 2023, surpassing Washington DC and Philadelphia in total population.

The area has drawn some of the strongest in-migration in the country over the past few decades, and many employers have openly stated that moving all or a portion of their operations to Atlanta saved them millions without sacrificing access to high-quality labor.

Atlanta's job market has more than recovered from employment losses during the pandemic, though some evidence now points to potential challenges on the horizon. There are now 6% more total jobs in the Atlanta area than there were in February 2020, nearly double the national rate.

Strong job growth has come from office-using sectors such as finance, professional services, and tech. However, layoffs announced by tech companies such as Google and Atlanta-based tech companies, along with Microsoft's 2023 postponement of plans for a 90-acre Westside campus have raised some questions about the continued velocity of job growth here.

In the long run, Atlanta remains an attractive market for corporate relocations. Microsoft is moving forward with its lease at Atlantic Station, and Google, Cisco, Invesco, Micron, and Norfolk Southern have all opened new offices in Midtown in recent years. However, elevated interest rates have made company relocations in general less appealing.

In the past several years, TK Elevator opened its North American headquarters, and Truist Securities announced that it would move to The Battery in Cumberland/Galleria; FinTech firm Deluxe Corporation added 700 new jobs at an innovation center in Central Perimeter, and Papa Johns relocated its headquarters to Cumberland/Galleria. Tech company Mailchimp expanded its local presence on the Eastside, while Airbnb and Nike are each established East Coast hubs in West Midtown. Most recently, PrizePicks chose to locate their headquarters in West Midtown.

Flat consumer spending and increasing automation have

begun to put a dent in industrial-using sectors, though employment here remains well above pre-pandemic levels. Hiring by firms like Amazon, Home Depot, HelloFresh, Freshly, Purple Mattress, and Goodyear, among others, has helped boost blue-collar job growth in recent years. Since late 2022, however, a few highprofile layoff announcements have highlighted weakness in the homebuilding sector as well as a broader move to automated technology in warehousing operations. American Building Supply closed a 600,000-SF distribution center, and Walmart announced it would slash 1.500 workers as it automated much of the work at its 1.2 million-SF fulfillment center near Hartsfield-Jackson Airport. Growth in the manufacturing sector may help to counterbalance losses in the logistics sector, though automation remains a factor for future employment needs in both sectors.

In the long term, Atlanta will continue to benefit from its standing as a major regional and national distribution hub and its proximity to the fast-growing Port of Savannah.

The presence of the well-connected Hartsfield-Jackson Atlanta International Airport is a significant factor in helping Atlanta attract residents and corporations. Atlanta's transportation and logistics hub status helped attract Norfolk Southern, which moved its corporate headquarters to Midtown in 2021. The airport, along with generous tax incentives, has also helped the region's growing film and entertainment industry, which is responsible for \$3 billion in annual direct spending in the state. One indicator of the growth in the film industry is that Georgia recently surpassed New York for the second-largest concentration of sound stages in the country.

Atlanta has a lower concentration of education and health services employment than the national average, but that sector has seen substantial job growth over the past few years. Multiple healthcare systems are constructing new facilities, and the sector is poised to grow to adequately serve the metro's growing population. Piedmont Hospital opened phase one of the \$450 million Piedmont Heart Institute tower in Buckhead early to treat coronavirus patients, Emory University Hospital Midtown is underway on its \$500 million Winship Cancer Institute tower, and Children's Healthcare of Atlanta is building a \$1.5 billion hospital and campus expansion in Brookhaven that will open in 2025.
